Parent's Comments:

Happy in school, he loves it.

We had technical problems but the school provided an ipad-Thank you!

The school provided everything they could have.

Thank you for your support during these crazy times.

The school has been great support during lockdown.

Very happy, my child loves school.

Zoom lessons were definitely the best way for home learning alongside the work on Google Classroom.

I know my child's wellbeing is important to the school and adequate measures have been put into place to protect them.

I think school has structured home learning really well.

The support, communication provided throughout lockdown and home learning has been amazing. Thank you for putting our children first.

We are completely happy with our child's return to school. They love school.

The school has been amazing, making everything seem as normal as possible.

We think the school teachers and staff were absolutely brilliant throughout lockdown. They were efficient, supportive and it was evident they were working around the clock! Communication was fantastic throughout.

My child absolutely loves school and seeing their teachers and friends. I'm completely happy and confident that school are doing all they possibly can to provide a safe environment for our children.

Throughout lockdown staff/teachers have been excellent! Communication was amazing, teachers were accessible around the clock if needed. The 'team' at school were so supportive and efficient. We feel they went above and beyond for our children, it's much appreciated.

The children, for most part, are happiest and better educated in school, with their friends and taught by the professional.

Home support was outstanding! We never felt alone or unsure of how to access help with lessons.

There was nothing more the school could have done to support home learning. The teachers and Head teacher worked so hard to keep the children (both at home and in school) informed and provided with educational material.

The teacher's and head teachers continued and tireless efforts to reach out to parents and children the entire lockdown situation felt organised, controlled and reassuring. Thank God for such a great school!

My children's school have managed infection control brilliantly.

'Over the moon' the children are back at school. Kid's love school. Teachers are amazing. We are very lucky to have a small school.

Thank you, we are so lucky to have had the support from you all.

My child feels safe going to school and has been happier since returning. I feel safe for them.

School is very supportive and made home schooling easier for me at home.

School couldn't have been more helpful. They did everything possible to support us at home.

Amazing school and teachers.

School has been brilliant.

The teacher was /is supportive and always helps if we have any questions or need advice.

I feel reassured that the school has everything possible in places to protect all the staff and my child.

On the whole, I was happy with the quantity and quality of home learning material and support provided.

I am very pleased with the help we had from school. They did an amazing job. Thank you.

Home learning was structured and organised, there was no pressure to complete all activities if we were not able to. My child loved seeing their teachers and classmates on Zoom. Really outstanding effort by their teacher.

Difficult to get him to do his work when he was surrounded by toys.

Working from home and trying to teach.

Concentration with a younger brother was a distraction.

More Zooms

Home is a totally different setting.

We don't have a printer which would have made it easier.

The constant conflict between working full time with 3 children, all different learning needs and capacity of self care. It made it very long days juggling work, school work, quality family time and housework.

Lockdown was very difficult managing children, work, home schooling and the house.

Shame guitar lessons cannot resume 'face to face' as I believe they have in many other schools.

More tailored work according to level of ability. Clear labelling of which year group each piece of work is for.

They missed the interactions with their peers, it didn't help them knowing that the majority of their year group were accessing learning at school whilst they were at home full time.

We didn't have the facilities to carryout Zoom until school very kindly organised this for us.

Please, no more lockdowns!
