

Enterprise Newsletter summer 1 2024

Happy summer term! Our new topic is 'How Does Your Garden Grow?' - we will be getting outdoors as much as we can and linking all our learning to growing! We will become scientists learning about the functions of parts of a plant and we will compare the effect of different

factors on plant growth such as light. We will be learning about churches in RE, rivers in geography and much more!

Have a look at our topic web for more detail on the school website: Classes → Enterprise- → what's new? It is also on Dojo for you to see.
